A cloth for all tasks: Combines optimal disinfection results with thorough cleaning

Whether in hospitals, doctors' practices, offices, public facilities or in nursing: The new cloth roll system meets the very high requirements for surface disinfection thanks to its enormous productivity and its comprehensive range of efficiency. With the handy and easily removable cloths sensitive surfaces can be disinfected quickly and efficiently in a very

material-friendly way. At the same time this goes along with an intensive cleaning. TEMDEX® Wipes roll is ready for immediate use – also without dispenser bucket. Thanks to the innovative safety packaging, the cloths cannot dry out even over a longer period of use. So you bring more sustainability to surface disinfection and save costs at the same time.

TEMDEX® WD plus Wipes roll

material-friendly, alcohol-free disinfection solution • bactericidal, yeasticidal and virucidal effectiveness against enveloped viruses such as flu, Noro, MRSA and SARS-CoV-2 • skin-friendly • VAH-listed
